

Brown Bear, Brown bear, what do you see?

くまさん くまさん なにみてるの？

For the whole month of August, we read the Book "Brown Bear, Brown Bear, what do you see?" by Eric Carle. We learn the different names of animals and colors using picture cards and color tablets.

During Montessori time, we also do a matching activity of the animals and colors. First, we lay down color tablet picture cards, after that we also lay down the black and white picture cards of the animals. And ask the children to put the same color tablet on the color tablet picture card. Then I began showing them the picture card of color and animal. For bear they said to me "brown bear" then I gave them the colored picture of the bear and ask them to put above the black and white color picture cards.

Lastly, we do a worksheet about animals and colors. The children have two choices. The first one is an animal coloring sheet and the other one is a color book.
